Also provided herewith is a new Rule 131 Declaration signed by all inventors of the above-referenced patent application which sets forth in clearly in paragraph 3 that use of Lng108, also known as fy108, as a cancer diagnostic was conceived and reduced to practice in Santa Clara, California, USA prior to October 27, 1999.

Submission of this Rule 131 Declaration overcomes the outstanding rejections under 35 U.S.C. § 102 and 35 U.S.C. § 103 over Olesen et al.

Applicants believe that the foregoing comprises a full and complete response to the Advisory Action of record. Accordingly, favorable reconsideration and subsequent allowance of the pending claims is earnestly solicited.

Respectfully submitted,
